

Southern Indiana Dental Care is excited to announce our Sellersburg practice's new lead dentist, Dr. Robyn Keeling!

Dr. Keeling received her DMD from the University of Kentucky College of Dentistry in 2002. While she has wide-ranging experience in different aspects of dental practice, Dr. Keeling primarily focuses on cosmetic and family dentistry. She especially prides herself in the expertise and empathy she gained from working in pediatric care. Dr. Keeling loves to spend her free time with her three amazing daughters, Avery, Lila, and Lucy.

We at Southern Indiana Dental Care are excited about our new lead doctor's 18 years of experience and commitment to excellence. Joining us from Louisville, Dr. Keeling is new in town and cannot wait for the opportunity to meet all of you.

SMILE FACTS! Get to Know Dr. Keeling

A MOVIE THAT MAKES YOU SMILE: The movie that makes me smile (not laugh, just smile) is The Contender.

FAVORITE SPOT IN KENTUCKIANA: Cherokee Park in Louisville. It's so vast and beautiful, and there are so many different things to see and do there.

FAVORITE FOOD: My very favorite dish in the area is the macadamia encrusted white fish at Sevi-che on Bardstown Road in Louisville.

FAVORITE VACATION DESTINATION: Florence, Italy.
Gorgeous city with so much rich history.

YOUR HERO: My hero is more a concept than an individual. My hero is someone with integrity; someone who is honest and loyal; someone who remains open minded; someone who smiles often and makes others smile. This is the person I strive to be.

I AM THE HAPPIEST WHEN... I'm spending time with my girls. This is my very favorite thing to do in all the world!

FAVORITE SEASON: I have always thought that one of the very best things about living in this part of the country is getting to experience every season. There are so many things I love about each.

FAVORITE THING ABOUT BEING A DENTIST: I have to say that it's being able to combine science with artistry in a way that impacts and improves people's lives. I love interacting with my patients. I love how I can apply medical science to help people feel better and love their smile. And, I am an artist at heart. Drawing, painting, designing, and creating have always been passions of mine. Dentistry has given me the opportunity to combine all three of these things, and I feel very lucky!
